The ideal showmanship performance consists of a poised, confident, neatly attired exhibitor, leading a well-groomed and conditioned horse that quickly and efficiently performs the requested pattern with promptness, smoothness, and precision. The showmanship class is not a halter class and should not be judged as such.

- 11.** When setting the horse up for inspection, the Exhibitor should stand angled toward the horse in a position between the horse's eye and muzzle, and should never leave the head of the horse.
- 12.** It is recommended, but not mandatory that the Exhibitors use the "Quarter Method" when presenting the horse.
- 13.** The Exhibitor should maintain a position that is safe for themselves and the Judge. The position of the Exhibitor should not obstruct the Judge's view of the horse and should allow the Exhibitor to maintain awareness of the Judge's position at all times. The Exhibitor should not crowd other Exhibitors when setting up side-by-side or head to tail. When moving around the horse, the Exhibitor should change sides in front of the horse with minimal steps and should assume the same position on the right side of the horse that they had on the left side.

- h. Optional:

- a. In this competition, a certain number of obstacles are set up in the arena. Each obstacle carries from 10 to 120 points according to its difficulty.
- b. Combination obstacles are not allowed.
- c. The obstacles must be built so that they can be jumped in both directions.
- d. The points allocated to the obstacles may be repeated at the discretion of the Course Designer.
- e. The competitor is credited with the number of points carried by each obstacle that he has jumped correctly.
- f. No points are awarded for an obstacle knocked down.
- g. may jump all the obstacles he wishes in any order and in any direction. He may cross the starting line in either direction. The starting line must be provided with four flags; a red and a white flag at each end of the line.
- h. Ringing the bell declares the end of the round. The competitor must then cross the finish line in one direction or the other to allow his time to be recorded. If he does not cross the finish line, he is placed last of the competitors with the same number of points. The finish line must be provided with four flags; a red and a white flag at each end of the line.
- i. If the fixed time is reached at the moment when the horse is already taking off, this obstacle counts if it is correctly jumped.

- j. Any obstacle knocked down during a round will not be rebuilt; if it is jumped again, no points will be credited to the competitor. The same applies for knocking down an obstacle in disobedience or for displacing a lower part positioned in the same vertical plane. In the case of a disobedience without a knock-down, the competitor may jump that obstacle or continue to the next obstacle.
- k. Each obstacle may be jumped twice. The act, voluntarily or not, of jumping an obstacle for the third time or of passing between the flags of an obstacle already knocked down does not incur elimination. However, the competitor does not score the points allotted to this obstacle.
- l. All disobediences are penalized by the time lost by the competitor. The competitor must stop after a fall. Nevertheless he is placed according to the points obtained up to the moment of his fall disregarding the time.
- m. The competitor who has obtained the highest number of points will be declared the winner. In the event of equality of points, the fastest time taken between the starting line and the finishing line will decide. In the event of equality of points and time for first place, there will be a jump-off according to the same formula with a fixed time of 40 seconds.
- n. There are two options for using a joker:
 - An obstacle may be provided in the course duly marked by flags and titled “Joker”. The Joker may be jumped twice; 200 points are awarded each time this obstacle is jumped correctly, but if it is knocked down, 200 points must be deducted from the total points obtained so far by the competitor.
 - The Joker is not part of the main course. After the fixed time has expired, the bell is rung to end the competitors round. The competitor must cross the finishing line to have his time recorded he then has 20 seconds in which to attempt the Joker once. Two-hundred points are awarded if this obstacle is jumped correctly, but if it is knocked down two-hundred points must be deducted from the total points obtained by competitor. In this scenario, the Joker is required to be jumped within twenty seconds after the fixed time has expired and after the competitor has crossed the finishing line, and only one attempt is allowed.

After deducting all faults, set here within, against execution of the pattern and the horse's overall performance, credit should be given for smoothness, finesse, attitude, quickness and authority of performing various maneuvers, while using controlled speed which raises the difficulty level and makes him more exciting and pleasing to watch to an audience.

 - Each pattern is drawn so that the bottom of the page represents the end of the arena entered by contestants and must be run as such. In the event

- that an arena has only one gate and it be in the exact middle of the side, that side shall represent the right side of the page the pattern is drawn on.
- All horses will be judged immediately upon entering the arena and judging will cease after the last maneuver. Any fault incurred prior to the commencement of a pattern will be scored according to the rules for judging.

1. Protective headgear is acceptable in all classes.
2. Drivers and passengers should be dressed conservatively and according to the style of the present day and type of turnout (i.e., Formal, Park, Country, Sporting).
3. Informal dress may be acceptable for cones/hazards competition however, it should always be neat and clean.
4. Gentlemen must wear a coat or jacket while appearing in any class unless excused from doing so by the judge and/or show management. When accepting awards, gentlemen are requested to remove their hats. Protective headgear with harness attached need not be removed.
5. Ladies must wear a jacket, conservative dress, tailored suit, or slacks. Floppy hats are discouraged. "Shorts" are not permitted.

2. Tails tied to vehicles, traces or breeching are prohibited.
3. In pleasure driving classes, bell boots, shin boots and wraps are prohibited.
4. Application of any substance or device or attachment to the pole or traces which may cause irritation to the horse is forbidden.
5. Tongues may not be tied in any manner.

2. All metal furnishing should match, be secure and polished.
3. Breast collars are appropriate with lightweight vehicles. Full collars are suggested for heavy vehicles such as Gig, Delivery Express, Phaetons, etc. For in pair and in Four-in-Hand, full collars are recommended.
4. A correctly fitting harness saddle is important for the comfort of the horse. A wide saddle is suggested for two wheeled vehicle as more weight rests on the horse's back. Narrow saddles are more appropriate for four wheeled vehicles.
5. Over checks are prohibited in any classes. Side reins are optional for pair, tandem and four-in-hand.
6. The use of kicking straps is permissible in Pleasure Driving classes, but should match the harness being used.
7. Snaffle bits and other types of traditional driving bits are allowed. Bits may be covered with rubber or leather. Bitless bridles (hackamores) or their use in conjunction with a bit is not permitted.

8. Flash nosebands are prohibited in pleasure driving classes

VII. The vehicle:

1. Drivers should strive to present an appropriate turnout. Appropriate indicates the balance and pleasing appearance of the combination of horse and vehicle.

 - d. Tandem class: acceptable vehicles include Village Cart, Gig, Dog Cart or heavy carriage.
 - e. NB: vehicles with car tires or bike tires and marathon carriages are prohibited. A Sulky is not considered a cart and therefore is prohibited.

VIII. Description of Gaits:

1. The following descriptions constitute approved standard for performance of each of the required gaits in a pleasure driving competition.
2. **WALK:** A free, regular and unconstrained walk of moderate extension is required. The horse should walk energetically, but calmly, with even and determined pace.
3. **SLOW TROT:** The horse should maintain forward impulsion while showing submission to the bit. The trot is slower and more collected but not to the degree required in the dressage. The horse should indicate willingness to be driven on the bit while maintaining a steady cadence.
4. **WORKING TROT:** A forward, active trot with the horse on the bit, carrying himself in balance and rhythm with even, elastic steps and good hock action. The hind feet touch the ground in the footprints of the fore feet. This pace is more rounded with the horse moving freely, on a light rein. The steps should be as even as possible.
5. **STRONG TROT:** This is clear, but not excessive, increase in

pace and lengthening of stride while remaining well balanced and showing appropriate lateral flexion on turns. Light contact to be maintained. Excessive speed will be penalized. The term “strong trot” should be used to call for the gait.

6. **HALT:** The horse(s) and vehicle should come to a complete square stop without abruptness or veering. At the halt, horses should stand attentive, motionless, and square with the weight evenly distributed over all four legs and be ready to move off at the indication from the driver.
7. **REIN BACK:** Rein back is defined as a backward movement in which the legs are raised and set down simultaneously in diagonal pairs with the hind legs remaining well in line. To be performed in two parts:
 - a. The horse must move backward at least four steps in an unhurried manner with head flexed and straight, pushing the carriage back evenly in a straight line. The driver must be use quiet aids with light contact.
 - b. Move forward willingly to the former position using the same quiet aids.

NB: Canter is prohibited in driving. Cantering in a driven class will be strongly penalized.

DRIVING CLASSES

IX. Working Class: for single, pair, tandem, unicorn and four-in-hand

A pleasure driving class in which entries are judged primarily on the suitability of a horse to provide a pleasant drive.

1. To be shown both ways of the arena at a walk, slow trot, working trot and a strong trot. To stand quietly, both on the rail and while lined up and to rein back. All entries chosen for a work-off may be worked both ways of the arena at any gait requested by the Judge and be asked to execute a figure and/or perform other appropriate tests.
2. To be judged:
 - a. 70% on performance, manners and way of going.

A pleasure driving class in which entries are judged primarily on the ability and skill of the driver.

1. To be shown at a walk, slow trot, working and strong trot. Drivers shall be required to rein back. All drivers chosen for work-off may be worked at any gait requested by the Judge and may be asked to execute a figure eight and/or perform other appropriate tests. In order to evaluate a driver's versatility, the Judge may request a test involving driving with one hand.
2. The driver should be seated comfortably on the box so as to be relaxed and effective. Either the one or two hand method of driving is acceptable. Common to both methods, the elbows and arms should be close to the body with an allowing but steady hand enabling a consistent "feel" with the horse's mouth. Drivers should not be penalized or rewarded for using one general style over the other.
3. To be judged:
 - a. 75% on the handling of reins and whip, control, posture and overall appearance of driver.

- b. 25% on the condition of harness and vehicle and neatness of attire.

XII. Cones Class:

1. The Obstacle Cones course will be included in the show book or posted at least one hour before start of the event.
2. Order of go will be determined by the width of carriages from the narrowest to the widest.
3. Clock will start when the horse's nose crosses the line of starting gate and stops as the horse's nose crosses the finish line.
4. Drivers must be allowed time to walk the course prior to the start of a class and to inspect each obstacle. While walking the course, drivers shall not alter, adjust or in any way move an obstacle, or any part thereof. Should a competitor have any question regarding a specific obstacle, he/she should call it to the attention of the Technical Delegate (if available) or the whipper-in or ring steward for clarification and/or adjustment.
5. The Obstacle Cone course is to be driven over a prescribed course of numbered obstacles consisting of pairs of cones/balls (or the equivalent) or other type markers (rails, fence panels, barrels, etc.).
6. Each obstacle on a prescribed course must be numbered consecutively and marked red on the right, white on the left. Within courses that consist of numbered obstacles, if possible it is suggested the number of an obstacle should be visible from the obstacle before it.
7. The number of gates may range from ten and twenty gates depending of the size of the ring.
8. After the competitor enters the arena, the gate will be closed. The competitor must wait for the Judge to blow the whistle. After the whistle, the competitor has one minute to pass through the starting gate. The competitor will be eliminated if he does not meet this expectation. After passing the through the starting gate, the competitor will proceed through each pair of numbered cones in order, as numbered and shown on the course map.
9. Canter is not allowed and will be penalized. Elimination will occur after 3 times of canter. (refer to penalties following)

10. Proper show attire is expected.
11. Grooms are mandatory depending of style of hitch.
12. If a horse is driven in a manner deemed to be unsafe to either the horse or the driver, the judge will eliminate the horse and driver from the competition.

Penalties:

1. Knocked down ball or cone and ball:3 seconds penalty
 2. Canter first time:5 seconds penalty
 3. Canter second time: 10 seconds penalty
 4. Canter third time:.....Elimination
 5. Starting before the whistle:.....Elimination
 6. Wrong course:Elimination
- All penalty points are added to time.

13. Course walk is permitted by the drivers before the class.
14. Any intervention by a third party, either on or off the vehicle, whether solicited or not, with the object of facilitating the task of the Competitor or helping his horses, is considered to be Outside Assistance. The Judge may eliminate any competitor, who it judges to have received outside assistance.

15. Distance between cones:

- Single:track of carriage + 30 cm
 Pair:track of carriage + 40 cm
 Tandem:track of carriage + 40 cm
 4-in-hand:track of carriage + 60 cm

NB: Measurement of Obstacles

For “Traffic Cones”, adjustment is made as follows:

The tread width of each vehicle should be taken at the ground on the widest pair of wheels. The allowance is added and the cones aligned and adjusted from corner to corner (see Illustration

below). This allows the greatest distance between the corner of the base and the upright portion of the cone. The taper of the cone provides clearance for normal hubs or whiffle trees or splinter bars.

If a whiffle tree or splinter bar proves to be too wide for this arrangement, the cones may be adjusted using the whiffle tree's measurement plus the appropriate allowance, measured at a height on the cone at the same height.

XIII. Antique Carriage Class:

This class is for original Antique Carriage. This class is primarily judged of suitability of horses, carriages, driver, grooms and passengers. This includes appropriate harness and costumes.

1. To be shown both ways of the arena at a walk, slow trot, working trot. To stand quietly and rein back (if necessary). All drivers chosen for a work-off may be worked both ways of the arena at any gait requested by the Judge and may be asked to execute any appropriate tests.
2. To be judged:
 - a. -80% on the entire turnout: fit and appropriateness of harness and vehicle, costumes, grooms, passengers, driver and overall impression
 - b. -20% on performance, manners and way of going.

XIV. Tandem Class:

This class is shown with two horses; a horse in front of the other one. The first one is called "leader horse" and the one between the shafts is called "wheeler horse". Normally the leader horse is a smaller than the wheeler and more agile. The wheeler is bigger and able to pull the carriage. The tandem class can be shown on a cart (Village cart, Gig, Dog Cart) or a heavy four wheels carriage (express, delivery wagon, wagnonette) . A groom is mandatory for this class.

1. To be shown both ways of the arena at a walk, slow trot, working trot and a strong trot. To stand quietly, both on the rail and while lined up and to rein back. All entries chosen for a work-off may be worked both ways of the arena at any gait

requested by the Judge and be asked to execute a figure.

2. To be judged:
 - a. 70% on performance, manners and way of going.
 - b. 20% on the condition and fit of the harness and vehicle.
 - c. 10% on the neatness of attire.

XV. Drive and Ride:

Single horse to be shown in two concurrent sections:

1. In Harness: To be shown to a suitable pleasure driving vehicle, (cart or four wheeled carriage) both ways of the arena at a walk, slow trot, working trot, and strong trot. To stand quietly and to rein back.
2. Under Saddle: To be shown both ways of the arena at a walk, trot, and canter. To stand quietly and to rein back. Can be shown in either English or western tack.
3. To be judged:
 - a. 50% on performance, manners, way of going and suitability in harness
 - b. 50% on performance, manners, and way of going under saddle
 - The driver and the rider can be different.
 - During tack changes, only 2 people will work around the horse.
 - Outside assistance can help to bring the carriage out of the ring after than the rider will be on the horse.
